

The Fetakgomo-Tubatse Special Economic Zone public participation session has attracted local residents in their numbers. Amongst the issues raised by the public are;

- Full involvement of local communities.
- Benefiting from Supply Chain Management
- Skills development
- Employment opportunities

The public has emphasized the importance of this development and have pledged their full support for its implementation.

However, they have issued a firm warning to the government that they will not be spectators, they expect to be involved in all phases of the project.
